HEARING RESEARCH

Vol. 177, Nos. 1–2
March 2003

CONTENTS

Cited in: Biological Abstracts (BIOSIS); Chemical Abstracts; Current Contents/Life Sciences; Current Awareness in Biological Sciences (CABS); Excerpta Medica (EMBASE); Index Medicus; INSPEC; PASCAL M; Reference Update; Full text available in ScienceDirect® and Neuroscion

Research Papers

G. Dunaway, Y. Mhaskar, G. Armour, C. Whitworth and L. Rybak (USA)
Migration of cochlear lateral wall cells 1

D.L. Heaney and B.A. Schulte (USA)
Dystroglycan expression in the mouse cochlea 12

F. Tanaka, C.A. Whitworth and L.P. Rybak (Japan, USA)
Influence of pH on the ototoxicity of cisplatin: a round window application study 21

C.K. Henkel, V. Fuentes-Santamaria, J.C. Alvarado and J.K. Brunso-Bechtold (USA)
Quantitative measurement of afferent layers in the ferret inferior colliculus: DNLL projections to sublayers 32

X. Shi, C. Dai and A.L. Nuttall (PR China, USA)
Altered expression of inducible nitric oxide synthase (iNOS) in the cochlea 43

D.E.H. Hartley and D.R. Moore (UK)
Effects of conductive hearing loss on temporal aspects of sound transmission through the ear 53

H. Wada, H. Usukura, M. Sugawara, Y. Katori, S. Kakehata, K. Ikeda and T. Kobayashi (Japan)
Relationship between the local stiffness of the outer hair cell along the cell axis and its ultrastructure observed by atomic force microscopy 61

N. Rozengurt, I. Lopez, C.-S. Chiu, P. Kofuji, H.A. Lester and C. Neusch (Germany, USA)
Time course of inner ear degeneration and deafness in mice lacking the Kir4.1 potassium channel subunit 71

G.-D. Chen and L.D. Fechter (USA)
The relationship between noise-induced hearing loss and hair cell loss in rats 81

S.J. Sterbing and A. Schrott-Fischer (Austria, Germany)
Neuronal responses in the inferior colliculus of mutant mice (Bronx waltzer) with hereditary inner hair cell loss 91

Y. Lu and P.H.-S. Jen (USA)
Binaural interaction in the inferior colliculus of the big brown bat, *Eptesicus fuscus* 100

G.K. Martin, E.I. Villasuso, B.B. Stagner and B.L. Lonsbury-Martin (USA)
Suppression and enhancement of distortion-product otoacoustic emissions by interference tones above f_2. II. Findings in humans 111

Corrigendum

U.B. Willi, M.A. Ferrazzini and A.M. Huber (Switzerland)
Corrigendum to "The incudo-malleolar joint and sound transmission losses". [Hear. Res. 174 (2002) 32–44] 123

Author Index Volume 177 124

Subject Index Volume 177 125
